

each panel works together to form the caricature or theme of the card

each panel, when combined together will cover the interior central region and may fasten in front of the device by themselves, or by using another securing device or adhesive, creating a unified caricature, plant, human, theme, shape, object, etc

methods of making the device include by hand, mechanical, computerized or any combination thereof

2. a single sheet of paper or foldable/bendable material, which has the pattern, template, instructions or means to make the form as in claim 1
3. paper or foldable/bendable material pre-folded with a design and/or letters, numbers, and/or words attached as in claim 1
4. paper or foldable/bendable material pre-folded with additional ornaments attached to enhance the affect of the card such as (but not limited to) stickers, glitter, additional paper, lace, protective coating, etc. as in claim 1 and/or claim 3
5. a craft item package with instructions as in claim 1, claim 2, claim 3, and/or claim 4
6. a device with an adhesive back side, such as but not limited to a sticky pad, magnet, elastic band, glue, tape, ribbon, or string as in claim 1, claim 3, claim 4, and/or claim 5
7. a device which is attached or a part of other objects for added decoration or usefulness such as but not limited to an envelope, box, bag, wrapping paper, card, other packaging or promotional samples as in claim 1, claim 3, claim 4, claim 5, and/or claim 6

8. a device displayed as fine art as in claim 1, claim 3, claim 4, claim 5, claim 6 and/or claim 7
9. a device which is placed in a clear pouch and secured (or with instructions to secure) to the outside of a gift or package as in claim 1, claim 3, claim 4, claim 5, claim 6 and/or claim 7

the clear pouch may have additional designs or writing such as "packing bow enclosed" or "shipping bow enclosed" printed on or in the clear pouch

10. a gift wrap item/package with instructions or implied instructions for use as in claim 1, claim 3, claim 4, claim 6, claim 7 and/or claim 9

## BACKGROUND OF THE INVENTION

### 1. Technical Field

This invention relates generally to a bow, card, packaging device, shipping or packing bow/card, ornament, invitation, party favor, novelty item, toy, craft item, piece of fine art, brochure or promotional item, etc., and more particularly to devices that fold inward from several sides which creates caricatures of humans, animals, plants, shapes, themes, etc.

### 2. Background Art

Clark, U.S. Pat No 395,953, discloses device for advertisement where the folded representation is the appearance of a bird, and the wings are extended from an accordion fold

Webb, U.S. Pat No. 727,723, discloses a fancy folding box with flaps that close equal to the radius of the box and adapted to cover one another when the box is opened, and abut and lie between the next adjacent wings when the box is shut
